Profile

Computer Science student at V.S.B Engineering College specializing in Artificial Intelligence and Software Engineering. Experienced in building end-to-end applications, including an NLP-based customer review insight system, during an internship at Infosys Springboard. The technical background includes Python, Java, and Web Technologies, with hands-on use of Google Gemini and Claude for project development. Focused on applying Data Structures and OOP principles to build functional software, from banking systems to web-based platforms.

EDUCATION

V.S.B Engineering College

Sep 2023 – May 2027

Bachelor of Engineering in Computer Science

Karur, TN

- **Coursework:** Data Structures, Algorithms, Databases, Operating Systems, Artificial Intelligence

Bhavans Sri Aurobindo Junior College

June 2021 – April 2023

Higher Secondary School

Hyderabad, TG

EXPERIENCE

Infosys Springboard

Aug 2025 – Oct. 2025

Artificial Intelligence Intern

Remote

- Developed a Customer Review Insight System to analyze user feedback and extract actionable product insights.
- **Implemented NLP techniques** to classify customer sentiment and identify common issues across product reviews.
- Built a web-based application using Python and data visualization tools to present insights for business decision-making.

PROJECTS

Customer Review Insight System | *Python, NLP, Pandas, Flask*

- Developed a system to analyze customer reviews and extract actionable product insights.
- Implemented Natural Language Processing techniques to classify sentiment and detect common product issues.
- Built a web-based interface to visualize insights for business decision-making.

Animeverse Gaming Platform | *HTML, CSS, JavaScript, Web Deployment* | Play Game

- Developed a browser-based gaming platform that allows users to play free games instantly without downloads.
- Designed a responsive interface with categorized games (arcade, puzzle, strategy) for smooth user navigation.
- Optimized performance to ensure fast loading and lag-free gameplay across desktop and mobile devices.
- Deployed the project online using modern web hosting tools for public accessibility.

Blog Application | *Next.js, MDX* | Blog

- Developed a Blog Application to update the user about latest technology on AI and various fields.
- Implemented MDX for writing and uploading blog. Created with Next.js.
- Deployed the project for targeting audience to be aware of the AI and technologies.

Certifications

- **Artificial Intelligence Internship Certificate** Infosys Springboard, 2025
- **Java Programming Certification** (NPTEL)
- **Java Foundation Certificate** (Infosys Springboard)
- **Python 101 For Data Science** IBM(Cognitive class)

SKILLS

Languages : Python, JavaScript (React.js), HTML/CSS, Java, SQL (MySQL)

Tools: Figma, Google Analytics, GitHub, VS Code, Vercel, Render, ChatGPT API, Google Gemini, NLTK, Claude

FrameWorks : Python (Flask)
